- Tools used: Mongoose, MongoDB, Heroku, CRUD, Node Js.

Progressive Budget | https://tinyurl.com/y35896po **|** https://tinyurl.com/y3mzfa2a
Progressive web application to track your budget even off-line while traveling
- I developed the back end of this project, enabling PWA features.
- Tools used: JavaScript, Progressive Web Application, Web-Manifest, Service Worker.

EXPERIENCE

Delivery Experience Ambassador   2017 – Present
Amazon   Seattle, WA
Test and utilize autonomous vehicles to deliver packages to Amazon customers. Refined software deployment and problem solving skills to resolve bugs to accelerate production.
Key Accomplishments:
- Led the creation of a new role which facilitated us reaching our delivery goal 3 months earlier than expected.
- Launched a new site in Irvine, CA. Training new ambassadors and pioneered the first training curriculum for future new hires.
- Utilized full stack ticketing system to work with peers to squash bugs daily.
- Identified issue with robots moving too slowly, collaborated with team to improve speed resulting in a 47% increase in packages delivered per hour.
